

Through consultation Limavady DPP, as an independent voice on policing, identified that people want the Police to focus on violent crime, drug issues, road traffic offences, recession based crime and antisocial behaviour. People expect the Police to be courteous and responsive and to provide reassurance and feedback. They want their police service to be highly visible, accessible, locally based and to work in partnership with communities and agencies to prevent and solve crime.

This plan, developed in partnership with the DPP, reflects the issues identified. Through ongoing meetings with the DPP it will seek to ensure that policing with the community is pivotal in the approach of the police to the communities they serve and that issues identified will be tackled together.

**Brenda Chivers**  
Chairperson, Limavady DPP.

In consultation with the District Policing Partnership a number of areas have been identified as priorities for 2010/11 including domestic burglary, drugs, road safety and antisocial behaviour.

As a police service we have the resources and capabilities to prevent and detect crime however our best resource is the local community. Everyone has a role to play and I am confident that we can meet any challenges that lie ahead if everyone is prepared to make a positive contribution.

During the forthcoming year, we will continue to work with communities and partners to make Northern Ireland safe, confident and peaceful. As a District, we will be implementing a new **Policing with the Community Strategy** which will be based on the three vital principles of being more **Visible, Accessible and Responsive** to community needs.
