<b>Domain: Organisational Development</b>	
<b>9.1.1 To demonstrate progress towards the implementation of actions as detailed in Part 3, reporting quarterly to the Board as specified.</b>	Updates on ongoing basis as required by Policing Board

- <sup>1</sup> This figure covers emergency response times where the time of arrival is available, duplicate incidents and false alarms are excluded. During the previous financial year to date there were a total of 18,398 such emergency response incidents. An arrival time was available for 67.5% (12,415) of these incidents while there was no arrival time available for 5,983 incidents. During the current financial year to date there were a total of 13,307 such emergency response incidents. An arrival time was available for 76.0% (10,115) of these incidents while there was no arrival time available for 3,192 incidents.
- <sup>2</sup> The crime figures for target 3.1.1 presented in this report for the current financial year to date include both crimes already validated by Central Statistics Branch and incidents known to be crimes but which are currently under process. Using this more inclusive figure gives a more accurate indication of the change in crime between the current and previous financial years to date. This undercount is only available for overall crime levels. It is not possible to provide an undercount in relation to the targets for violent crime, criminal damage and domestic burglary.
- <sup>3</sup> The rural and urban figures for 2007/08 may not add to the overall total as some crimes have yet to be allocated to a District Command Unit.
- <sup>4</sup> The figures shown only reflect impact on crime gangs achieved by drug squad. The 2007/08 figures are ongoing totals that are changing on a continuous basis in accordance with successes against crime gangs. Success should be evaluated in terms of how the PSNI is progressing throughout the year towards exceeding the previous years outcomes.
- <sup>5</sup> The sickness figures are measured against what would be expected for each month on a cumulative basis. The target for police officers and civilian staff is 10 days which equates to 0.83 days for each month. On a cumulative basis this becomes 0.83 for April, 1.67 for April-May, 2.5 for April to June etc. The total average working days lost for the current financial year to date are presented against these targets.
