

Making Northern Ireland Safer For Everyone Through Professional, Progressive Policing

FREEDOM OF INFORMATION REQUEST

Request Number: F-2010-03231

Keyword: Crime

Subject: Crimes Against Wildlife

Request and Answer:

Question 1

How many crimes against wildlife have been recorded by the PSNI during the period 1 November 2005 to 1 November 2010 (inclusive)?

Question 2

For each of the crimes recorded above, I would like the information broken down by type of animal involved.

I would also like to know:

- the date of each crime, broken down by year, month and day (if known),
- the nature of the crime committed,
- the location of the crime,
- any action taken against the individual responsible for the crime, whether fined or other legal consequences.

Answer

Section 17(5) of the Freedom of Information Act 2000 requires the Police Service of Northern Ireland, when refusing to provide such information (because the cost of compliance exceeds the appropriate limit) to provide you the applicant with a notice which states that fact.

It is estimated that the cost of complying with your request for information would exceed the "appropriate costs limit" under Section 12(1) of the Freedom of Information Act 2000, which is currently set by the Secretary of State at £450 (18 hours).

The information for the period November 2005 to March 2007 is not easily retrievable. During this period a different recording system was employed. A lengthy interrogation of this system would be required to retrieve all the information and the data would require further examination and categorising. This process would take weeks to complete.

In relation to the actions taken against those responsible for the offences, this information is not recorded centrally and therefore to source, collate and examine each individual case would take approximately 3 months to complete. Therefore, retrieval of this information would greatly exceed the

18 hour cost limit.

The PSNI has also considered if it can assist you to refine your request and bring it under the cost limit, unfortunately the nature and structure of the information makes this impossible.

In accordance with the Freedom of Information Act 2000, this letter should be considered as a Refusal Notice, and the request has therefore been closed.

Although excess cost removes the PSNI's obligations under the Freedom of Information Act, I have provided below the information which was retrieved before it was realised that the fees limit would be exceeded. I trust this is helpful but it does not affect our legal right to rely on the fees regulations for the remainder of your request.

Answer

The information provided at the end of this correspondence has been retrieved within the 18 hour cost limit. The spreadsheets below, detail offences for the period April 2007 to October 2010.

Where dates have been recorded with no further detail, this is a result of an unofficial and unrecorded incident, usually by way of a third party. PSNI has endeavoured over the last couple of years to encourage external Wildlife groups to report all incidents to police, as this has not been happening in the past.

Please note that some fields within the tables provided are incomplete, this is due to the limited information provided at the time.

The following abbreviations contained in the data are explained below:

NIEA – Northern Ireland Environment Agency

VSD – Veterinary Science Division

WLO – Wildlife Liaison Officer

DARD – Department of Agriculture & Regional Development

RSPB – Royal Society for the Protection of Birds

USPCA – Ulster Society for the Protection & Cruelty to Animals

EHS – Environment & Heritage Service

ANON – Anonymous

IO – Investigating Officer

UWT – Ulster Wildlife Trust

MOP – Member of Public

TACT – Talnotry Avian Care Trust

DCAL – Department of Culture, Arts & Leisure

BB Gun – Ball Bearing Gun

A list of convictions has also been retrieved for the period 2005 to 2010 and is contained in the final spreadsheet.

If you have any queries regarding your request or this decision please do not hesitate to contact me on 028 9070 0164. When contacting the Freedom of Information Team, please quote the reference number listed at the beginning of this letter.

If you are dissatisfied in any way with the handling of your request, you have the right to request a review. You should do this as soon as possible or in any case within two months of the date of issue of this letter. In the event that you require a review to be undertaken, you can do so by writing to the

Head of Freedom of Information, PSNI Headquarters, 65 Knock Road, Belfast, BT5 6LE or by emailing foi@psni.pnn.police.uk.

If following an internal review, carried out by an independent decision maker, you were to remain dissatisfied in any way with the handling of the request you may make a complaint, under Section 50 of the Freedom of Information Act, to the Information Commissioner's Office and ask that they investigate whether the PSNI has complied with the terms of the Freedom of Information Act. You can write to the Information Commissioner at Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. In most circumstances the Information Commissioner will not investigate a complaint unless an internal review procedure has been carried out, however the Commissioner has the option to investigate the matter at his discretion.

Please be advised that PSNI replies under Freedom of Information may be released into the public domain via our website @ www.psni.police.uk

Personal details in respect of your request have, where applicable, been removed to protect confidentiality.

Information Required	Incident date DD/MM	Incident location	Species Involved	Incident Details	Additional Information (eg outcome to the enquiry., caution prosecution details etc)
Example of information required	Date that incident occurred	Exact location that incident occurred including Town / City, Grid Ref or Post Code	Was it a bird of prey? Owl? Do we have exact details e.g. Hen Harrier (Circus Cyaneus)	What were the circumstances of the incident e.g. MO	What was the outcome of the incident? Was it closed NFA? Did enquiries identify a suspect?
