## **General Notes to accompany data**

### **Racist motivation definition:**

A racist motivated crime is defined as any crime which is perceived to be racist by the victim or any other person. A racial group can be defined as a group of persons defined by reference to race, colour, nationality or ethnic or national origins (this includes UK National origins ie Scottish, English, Welsh and Irish) and references to a person's racial group refer to any racial group into which he/she falls. Racial group includes the Irish Traveller community.

### **Religious motivation definition:**

A faith/religious motivated crime is defined as any crime which is perceived to be based upon prejudice towards or hatred of the faith of the victim or so perceived by the victim or any other person. A faith or religious group can be defined as a group of persons defined by reference to religious belief or lack of religious belief. This would include Christians, Muslims, Hindus, Sikhs and different sects within a religion. It also includes people who hold no religious belief at all.

### **Data Quality:**

The PSNI's statistics on incidents and crimes with a domestic abuse motivation are derived from a motivation 'tick box' contained in the Occurrence Management Form which has to be completed by a police officer or member of police staff for each such reported incident/crime. The correct application of a domestic abuse motivation for all such incidents/crimes is not quality assured by the PSNI's Central Statistics Branch, but quarterly audits are conducted to ensure that any under or over-recording is corrected.

### **Victim / offender characteristics:**

Information on victim characteristics is based on the number of offences with a racist/religious motivation recorded in the period specified, whereas information on offender characteristics is based on the number of offences with a racist/religious motivation recorded and since detected.

<sup>1</sup>No person victim refers to offences which are state based or where the victim is a business.

<sup>2</sup>Note that a person could have been a victim of more than one offence on more than one occasion during the time period. The figures above therefore relate to the victim characteristics of each offence recorded rather than number of discrete victims.

<sup>3</sup>Victim characteristics are taken from a live crime recording system and will be subject to change.
