Subject: Drivers Breathalysed After Fatal Accidents in 2011

Request and Answer:

Question

I would like to know how many drivers, who have been involved in fatal accidents, have been breathalysed following those accidents in 2011.

Answer

This is to inform you that the Police Service of Northern Ireland has now completed its search for the information you requested. The decision has been taken to disclose the located information to you in full.

Where an injured driver is unable to provide a preliminary breath test and is under medical care the police must defer to the patient's wellbeing and may only obtain a breath test with the doctor's permission.

Of the 57 fatal collisions that occurred in 2011, 23 of these collisions involved 29 drivers being breathalysed.
