

### Offences which have occurred at a hospital location for the time period 1 January 2017 - 31 July 2018

The hospital location has been identified based on crime recorded on PSNI systems where the occurrence MO\_location is 'Medical' and where the MO\_location\_subtype is 'Hospital'. Each record has not been manually checked to establish whether or not the offence actually took place inside the hospital. It is possible that offences may have occurred outside the hospital (e.g. in the car park) or may have occurred within the vicinity of the hospital.

In addition to 'hospital' the MO\_location of 'medical' includes the following subtype codes which were not included in the response: mental health unit, surgery/health centre, other (medical), hospice and dental surgery.

Hospital name has been identified using either the premises name or common name field. Please note while the MO location may have identified a hospital location, the specific hospital name may be misspelt, simply say 'in the vicinity of', or may be missing altogether.

The date provided corresponds to the date the crime was reported to police.

*Please note: This information is based on data extracted from a live crime recording system and may be subject to change. It is dependent on the information having been input into the system in such a way as to identify those records that are relevant.*

Ref	Date of report to police	Type of crime Recorded	Hospital Name
1	01/01/2017	Criminal damage	CRAIGAVON AREA HOSPITAL
