## Performance Report to the Service Executive Board

Created on: 11<sup>th</sup> June 2015

Period Covered: 1<sup>st</sup> April – 7<sup>th</sup> June 2015 (Approximating Quarter 1)

This report has been compiled using the latest information available.

The information in this document is intended to provide the Service Executive Team and Policing Board members with an assessment of police performance against the Northern Ireland Policing Plan 2015 - 2016 outcomes, using the measures agreed during development of the plan.

Further statistical and qualitative information is available to members via the PRiDE reporting system and via PSNI published statistics at:

[http://www.psni.police.uk/index/updates/updates\\_statistics.htm](http://www.psni.police.uk/index/updates/updates_statistics.htm)

Members may also wish to examine Northern Ireland Crime Survey reports published by the Department of Justice at:

## Executive Summary

**Anti-social behaviour** (ASB) has reduced by 8.8% this financial year; this equates to 1,093 fewer victims. This decrease follows an increase of 0.5% in 2014 / 2015. In previous years ASB increases in June and then peaks in July.

The **outcome rate for rape crime** has increased by 7.2 percentage points to 14.2% this financial year. The number of rapes recorded in the same period has reduced by 24, a reduction of 18.5%. Whilst the undercount will impact on these figures, the trends appear to be moving in the right direction.

Reporting of hate crime has reduced by approximately 11.9%. There have been reductions in respect of sectarian, homophobic and racist hate crimes. Outcome rates and outcome numbers, however, have increased.

There has also been a reduction of 3.3% (84 offences) in reports of **crimes with a domestic motivation**. There has also been a reduction in the number of violence against the person offences. The outcome rate for domestically motivated crime has increased by 0.9% points.

The number of **domestic burglaries and robberies in which older persons have been victims** has increased by 27.8% or by 64 offences from 230 to 294. The outcome rate for domestic burglaries in which older people were victims has reduced by 1.3% from 8.3% to 7%. The number of outcomes however, has increased from 18 to 20.

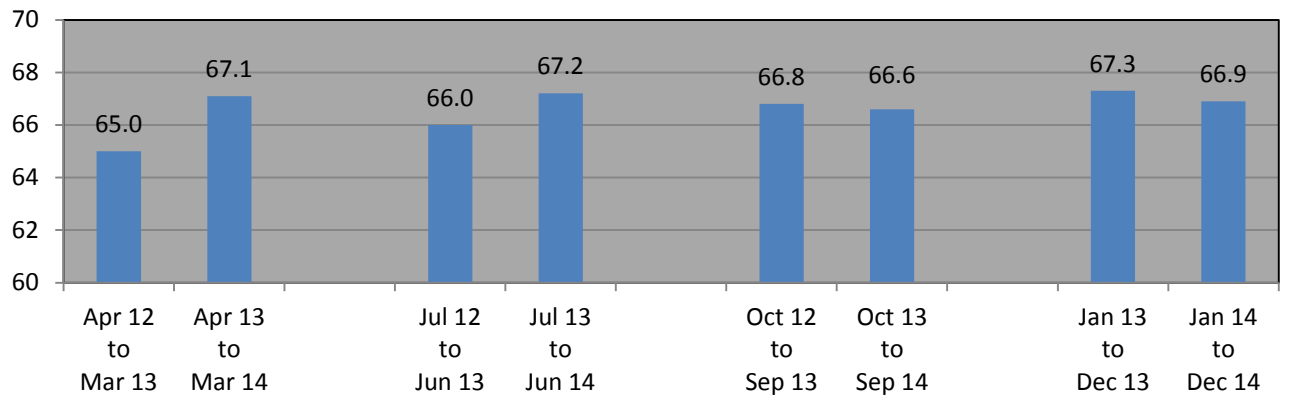

The figures for crime and ASB contained in the Performance at a Glance and Overview tables were taken from Saturn and Pride on 11<sup>th</sup> June covering the period 1<sup>st</sup> April – 7<sup>th</sup> June. The undercount for this period was 6.5%. The undercount impacts on all the crime and outcome figures with the exception of overall crime. The numbers are financial year to date comparisons unless otherwise stated. There are a number of figures that are only available on a quarterly basis so these cannot be updated. In the Police Performance at Glance table red or green text indicates the position against the Policing Plan target. Black text means the numbers are not available for this financial year and represents the year end position for 2014/15.
