Rural Region	72.6%	-7.4% pts	72.0%	+2.0% pts
All other units	20.0%	-60.0% pts	35.0%	-35.0% pts

- ¹ The crime figures for target 1.1.1 presented in this report for the current financial year to 16.07.09 include both crimes already validated by Central Statistics Branch and incidents known to be crimes but which are currently under process. Using this more inclusive figure gives a more accurate indication of the change in crime between the current and previous financial year figures. This undercount is only available for overall crime levels. It is not possible to provide an undercount in relation to the targets for violent crime, criminal damage and domestic burglary. For the current financial year to 16.07.09, 91.4% of crimes have been validated by Central Statistics Branch, leaving around 2,869 crimes under process for this time period.
- ² The rural and urban figures for 2009/10 may not add to the overall total as some crimes have yet to be allocated to a District.
- ³ Differing milestones have been set for Service level, Regions and Districts in respect of the 3 year targets for overall crime, domestic burglary, criminal damage and anti-social behaviour.
- ⁴ More serious violent crime includes offences of murder, manslaughter, infanticide, child destruction, attempted murder, causing death/GBH by dangerous driving /aggravated vehicle taking, wounding/GBH with intent, firearms/explosives offences endangering life, administering poison and wounding/GBH.
- ⁵ The figures shown only reflect impact on crime gangs achieved by drug squad. The 2009/10 figures are ongoing totals that are changing on a continuous basis in accordance with successes against crime gangs. Success should be evaluated in terms of how the PSNI is progressing throughout the year towards exceeding the previous years outcomes.
- ⁶ The rural and urban figures for 2008/09 and 2009/10 may not add to the overall total as some incidents are not allocated to a District (eg those occurring in a motorway location).
- ⁷ The sickness figures are measured against what would be expected for each month on a cumulative basis. The target to be achieved by 31 March 2010 for police officers and police staff is 5 days which equates to 0.42 days for each month. On a cumulative basis this becomes 0.42 for April, 0.83 for April-May, 1.25 for April to June etc. The total average working days lost for the current financial year to date are presented against these targets.
