Agricultural and Rural Crime in Northern Ireland

Update to 30 June 2019

Agricultural crime has shown an overall downwards trend since the start of the data series in 2010/11.

In 12 months from 1st July 2018 to 30th June 2019:

- There were 386 agricultural crimes recorded in Northern Ireland, a fall of 24 on the previous 12 months and continuing the downward trend seen since 2010/11.

- 97 per cent of agriculture crime was identified as occurring in rural settlement areas.

- Agriculture crime represented 1.2 per cent of all burglary, robbery and theft offences.

- Six policing districts showed a fall in levels of agricultural crime, while five showed an increase.

Coverage

This release is produced in accordance with the pillars and principles set out in the Code of Practice for Statistics.

The Police Service of Northern Ireland (PSNI) publishes figures on the levels and trends in agricultural and rural crime in Northern Ireland. These figures are based on police recorded crime data and details of the definitions and methodology used are provided below. The statistics are collated and produced by statisticians seconded to PSNI from the Northern Ireland Statistics and Research Agency (NISRA).

This bulletin presents agricultural and urban/rural crime for the following time periods:

- Latest 12 months 1 July 2018 to 30 June 2019 and previous 12 months 1 July 2017 to 30 June 2018.
- Current financial year to date 1 April 2019 to 30 June 2019 and previous financial year to date 1 April 2018 to 30 June 2018.

All tables and charts in the bulletin, along with figures for financial years dating back to 2010/11 and for calendar years dating back to 2011 are available from the PSNI website in the accompanying spreadsheet.

Definitions

**Agricultural Crime:** the agricultural crime figures in this bulletin represent offences of burglary, robbery and theft where the victim is involved in an agricultural-based activity. Agricultural crime covers burglary, robbery and theft offences where the property or vehicles stolen have an agricultural link (e.g. farm equipment, agricultural vehicles, livestock) or where the location was agricultural (e.g. farm, farmhouse). This information is identified from both drop down pick lists and free text searches using key agricultural-related words.

**Urban/Rural crime:** this covers all burglary, robbery and theft offences, split into these two geographical areas based on an aggregation of settlement bands. Please note that not all agricultural crime will occur in a rural settlement.

The urban/rural crime split is based on classification boundaries that are available for Northern Ireland as defined by the Planning Service, these areas being defined from Settlement Development Limits. Further details are available from the NISRA website (http://www.nisra.gov.uk/support/geography/urban-rural-classification). Crimes are allocated to urban or rural by linking the available postcode information for the crime location to the Central Postcode Directory.

Data Revisions

**Agricultural crime tables:** As the methodology used to identify agricultural crimes relies on data extracted from a live operational system, figures contained in the agricultural crime tables may be subject to revision. Further information is provided in the NOTES section on the last page of this bulletin.

**Urban/Rural tables:** Revisions to previously published annual data were applied for the first time to financial year figures released in May 2018. The revisions to 2015/16 and 2016/17 were to take account of crime cancellation or identification of a sanction outcome which occurred after the figures were initially published. Revisions of this nature will next be applied in May 2020. Further guidance on crime cancellation can be found in the Home Office Counting Rules for Recorded Crime.
The number of burglary, robbery and theft offences relating to agricultural-based activity has shown an overall downwards trend from 937 offences recorded in 2010/11 to 402 recorded in 2018/19. The figures for 2018/19 show a decrease of 41 when compared with 2017/18 and are less than half of the level recorded in 2010/11. [Figure 1 and Table 1, accompanying spreadsheet]

**Figure 1**  Trends in agricultural crime since 2010/11

![Graph showing trends in agricultural crime since 2010/11](image)

Figure 2 below shows the falling levels of agriculture crime since April 2014. The variation in levels between months tends to have lessened in the last year or so. [Table 4, accompanying spreadsheet]

3. What has been happening to levels of agricultural crime more recently?

In 12 months from 1st July 2018 to 30th June 2019:

- There were 386 agricultural crimes recorded in Northern Ireland, a fall of 24 on the previous 12 months and continuing the downward trend seen since 2010/11. [Table 1 and Figure 1]

- 97 per cent of agriculture crime was identified as occurring in rural settlement areas. Since 2010/11 this proportion has ranged between 95 and 98 per cent1 [Table 2, accompanying spreadsheet]

- Burglary and robbery represented 38 per cent of agricultural crime, while theft represented 62 per cent. Since 2010/11 burglary and robbery have represented between 27 and 38 per cent of agricultural crime while theft has represented between 62 and 73 per cent [Table 3, accompanying spreadsheet].

- Agriculture crime represented 1.2 per cent of all burglary, robbery and theft offences. This compares with 1.3 per cent during the previous 12 months. [Tables 1 and 5]

- The highest level of agriculture crime was seen in Newry, Mourne & Down (69 offences), followed by Causeway Coast & Glens (57), Mid Ulster (51), Fermanagh & Omagh (48), Armagh City Banbridge & Craigavon (46), and Mid & East Antrim (38). [Table 1]

- Six of the policing districts showed a decrease in levels of agricultural crime, while five showed an increase. Armagh City, Banbridge & Craigavon had the greatest decrease (16) and Causeway Coast & Glens had the greatest increase (9). [Table 1]

Figure 3 Agricultural crime July 2017 to June 2019

1 Urban/rural settlement figures are identified through matching the postcode of the occurrence with the Central Postcode Directory.

Between 2010/11 and 2018/19:

- Looking at Northern Ireland as a whole, burglary, robbery and theft offences showed an overall downwards trend between 2010/11 and 2018/19, with the level recorded in 2018/19 representing a fall of 21.2 per cent when compared with 2010/11. [Table 5, accompanying spreadsheet]

- The number of burglary, robbery and theft offences in rural settlements fell each year between 2010/11 and 2017/18 before showing an increase in 2018/19. The level of 5,658 recorded in 2018/19 is more than a third lower than the 9,211 offences recorded in 2010/11. [Table 5, accompanying spreadsheet]

- Levels of burglary, robbery and theft offences in urban settlements have shown an overall downwards trend since 2010/11. The level of 25,668 recorded in 2018/19 shows a fall of 16.0 per cent when compared with 2010/11. [Table 5, accompanying spreadsheet]

- Between 2010/11 and 2018/19 the proportion of burglary, robbery and theft offences occurring in urban settlement areas increased from 77 per cent to 82 per cent. Correspondingly the proportion of these offences occurring in rural settlements fell from 23 per cent to 18 per cent. [Table 5, accompanying spreadsheet]

**Figure 4  Trends in burglary, robbery and theft offences by urban and rural split since 2010/11**
In 12 months from 1st July 2018 to 30th June 2019:

- In Northern Ireland as a whole, burglary, robbery and theft offences increased by 1.4 per cent (425 offences). [Table 5]

- The number of burglary, robbery and theft offences in rural settlements increased by 4.3 per cent (238 offences). [Table 5]

- Levels of burglary, robbery and theft offences in urban settlements increased by 0.7 per cent (187 offences). [Table 5]

- The proportion of burglary, robbery and theft offences occurring in urban settlement areas was 82 per cent, with the proportion of these offences occurring in rural settlements sitting at 18 per cent. These proportions were also recorded during the previous 12 months. [Table 5]

- The percentage of burglary, robbery and theft offences occurring in rural settlement areas was 53 per cent in Mid Ulster, 45 per cent in Fermanagh & Omagh, 41 per cent in Newry, Mourne & Down, 37 per cent in Causeway Coast & Glens, 29 per cent in Armagh City, Banbridge & Craigavon, 26 per cent in Antrim & Newtownabbey, 26 per cent in Mid & East Antrim, 19 per cent in Lisburn & Castlereagh City, 18 per cent in Derry City & Strabane and 15 per cent in Ards & North Down. This figure was less than 1 per cent in Belfast City. [Table 5]

| Belfast City | 12,179 | 12,163 | 44 | 32 | 12,223 | 12,195 | 5. What has been happening to levels of urban and rural crime more recently?
Like any administrative data, police recorded crime statistics are affected by the rules governing the recording of data, systems in place and operational decisions in respect of the allocation of resources. More proactive policing in a given area could lead to an increase in crimes recorded without any real change in underlying crime trends. These issues need to be taken into account when using these data.

**Definitions**

*Agricultural crime* covers burglary, robbery and theft offences where the property or vehicles stolen have an agricultural link (e.g. farm equipment, agricultural vehicles, livestock) or where the location was agricultural (e.g. farm, farmhouse). This information is identified from both drop down pick lists and free text searches using key agricultural-related words.

*Urban/Rural* crime covers all burglary, robbery and theft offences, split into these two geographical areas based on an aggregation of settlement bands.

Please note that not all agricultural crime will occur in a rural settlement.

**Data Accuracy and Revisions**

Agricultural crime figures are based on a range of information extracted from a live crime recording system and, as such, will always be subject to revision.

Within the current financial year revisions may occur because:

- There will be incidents identified as crimes but not processed on the crime recording system by the time the figures are extracted for presentation in these tables.
- Figures may change from month to month due to crimes being reclassified from one crime type to another during the financial year. This may be because quality checks have identified the crime as incorrectly classified, or further information may indicate that the circumstances surrounding the crime were not as initially recorded.
- The Home Office Counting Rules allow crimes initially recorded to be ‘no crime’d’ or removed from the crime figures.

Revisions to any records within the dataset may also occur as information in relation to property stolen, vehicles stolen and location may be updated on the live system. This may be through adding additional information or updating existing information based on more up-to-date details.

The urban/rural figures are identified through matching the available postcode to the Central Postcode Directory. Postcode accuracy and availability within the current financial year will not be of the same quality or completeness as a full financial year. This is because additional quality checks are completed at the end of each financial year to improve postcode quality and completeness. Further details are available in the User Guide to Police Recorded Crime Statistics in Northern Ireland.

**Further information**

*Trends in Police Recorded Crime in Northern Ireland 1998/99 to 2017/18* was published on 31 October 2018 and provides detailed trend information covering this time period.

Further details on Police Recorded Crime statistics are available in the User Guide to Police Recorded Crime Statistics in Northern Ireland, and in the Police Recorded Crime Statistics Quality Report. These are reference guides with explanatory notes regarding the issues and classifications which are key to the production and presentation of police recorded crime statistics.

Copies of other PSNI publications are available from the PSNI website: [https://www.psni.police.uk/inside-psni/Statistics/](https://www.psni.police.uk/inside-psni/Statistics/)
