## Apple Safari

Safari can be identified and launched by clicking on one of the following icons:

To get the version number of your Safari browser go to the "About page". You can find the About page via the menu bar at the top, click on "Safari". Then click on the "About Safari" in the drop-down menu.

About Safari	1110101.) 200	Q Search or ente	r website name			· v .	
Preferences ¥,	Favorites						
Clear History	1				-		
Services ►			YAHOO!			W	
Hide Safari 第H Hide Others	Apple	iCloud	Yahoo	Bing	Google	Wikipedia	
Quit Safari #Q	f	y	in	The Weather Channel	yetpæ	00	
	Facebook	Twitter	LinkedIn	The Weather	Yelp	TripAdvisor	
					Safari		
				Version 10.1 Copyright © 2 All righ	(12603.1.30.0.34) 003-2017 Apple Inc. hts reserved.		
				-	_		

In the About Safari window, the first number listed is the Safari version number, this is the number you will need to check.

## Updating your Safari Browser

If you have Apple updates turned on your Safari browser should stay up to date automatically. If you need to update your browser manually, follow the steps below:

1. Select App Store 📠

2. Scroll through until you find Safari and click Update Updates

Take note: This Update option will cause every listed update to be applied.
