Updating your Google Chrome Browser

Normally Google Chrome will update automatically as new versions are released to the public. If you have to update it manually follow the steps below:

- 1. Open Chrome browser
- 2. Click or in upper right-hand corner of screen.
- 3. Select Help, and then select About Google Chrome.
- 4. The window that appears will automatically check for updates and show you the current version of Chrome.
- 5. If an update is available, there will be an option to install the update.

Note: You can also download the latest version of Chrome from the Google Chrome download page which can be found at the following link <u>https://www.google.com/chrome</u>.
