PPAC Overtime	<p>This revised policy clarifies the current guidance for Police Officers on entitlement to receive overtime compensation by Officers in Constable and Sergeant ranks. Overtime entitlements are enshrined in Regulations (PSNI Regulations 2005 and associated Determinations). There have been no recent regulatory changes to overtime entitlement. This review of the PPAC chapter on Overtime therefore does not make any specific changes to the original policy and its entitlement guidance. Rather the purpose of the review is to provide greater clarity around entitlement in a range of scenarios for police officers and their Ops Planners.</p>	<p>11/11/2019</p>	<p>Screened Out</p>	<p>Overtime working is dependent on the need to meet operational demands and to keeping people safe. Body Worn Video	<p>Following a pilot scheme in 2014, PSNI has taken the decision to implement the use of Body Worn Video (BWV) cameras. The aim of the practice is to provide officers with guidance on the practical use and application of the device. BWM has been used nationally by other constabularies and other policing related agencies since 2006. Advances in reliability, technology and reductions in overhead costs have now made BWV a realistic concept within the PSNI. The use of BWV has the potential to improve significantly the quality of evidence provided by police officers and public bodies within the criminal justice system in the drive to reduce crime and the fear of crime and increase the proportion of offences brought to justice. Police forces have utilised video evidence for several years through local CCTV, police vehicle systems and hand held devices employed during specific operations. BWV equipment will enable the PSNIU to make greater use of video evidence due to its increased availability on the front line as officers will be able to maintain the use of their hands and peripheral sense while recording an incident</p>	<p>31/11/2019</p>	<p>Screened Out</p>	<p>Whilst the use of the device is not deemed to carry any obvious potential for negative impact on any particular individuals or groups, it is recognised having run a pilot and considered the potential impact on those who are blind/visually impaired will not be as aware of Police Officers wearing the cameras as those who have no such disability.</p>
