55 - 69	384
70+	152
Unknown	6
Total	1,289

Q6. Section 6 in the [2024 RSP annual statistical report](#) contains information on injury collisions recorded at safety camera sites. It should be noted that the statistics in this section refer to permanent mobile speed camera locations only, which are subject to collision-based criteria. They do not include collisions at community concern sites.

Notes:

1. *Detection figures include those that resulted in a fixed penalty notice, speed awareness course or referral for prosecution.*
